This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PREFACE.

If the study of Word-Analysis has not yet the assured and definite place it should by rights have in our ordinary school course, we may perhaps find the reason in the lack, thus far, of text-books technically constructed with a view to such simplification and graduation of the study as are required to meet the needs of elementary instruction. There is, at least, a wide and growing realization of the fact that the study of the English language is very inadequately provided for in the old system, which deals but with the *forms* of our native speech, and does not even touch its *substance*. The barrenness of the ancient grammatical training is too notorious for it to be possible that it should long retain its usurped primacy as the *sole* means of linguistic discipline. Formal grammar will not lose its place, and should not lose its place; but we may well believe that it will undergo such a re-adjustment as the enlarged modern views demand—at any rate, that it shall not displace other branches of the study of English that are equally important and far more fruitful. Theoretically, the study of the English language embraces three departments:

1. The study of the English vocabulary—Word-Analysis.
2. The study of the structure of English—Mixed Grammar and Composition.
3. The study of English forms—Grammar.

The Graded Word-Book has for its object to supply a practical working manual treating of the *first* department of the study of our language—namely, the study of the *English vocabulary*. It presents three prominent points of peculiarity that distinguish it from all previous text-books of etymology:—

1. It is so graded that part I deals exclusively with *English* primitives and their derivatives. On this head little will need to be said in justification. It will probably be conceded by the majority of teachers that the main obstacle to the utility of existing class-books of etymology arises from the fact that they assume on the part of the pupil a knowledge of classical roots and forms which it is impossi-

ble he should possess. The author believes that the whole logic and rationale of word-formation may be amply illustrated without going beyond simple English and Saxon primitives. When once the real nature of the formative elements and the philosophy of word-building have been mastered by the scholar, he will advance with pleasure and profit to the study of Latin and Greek derivatives. Accordingly, all classical roots are relegated to Part II.

2. The treatment of the Latin derivatives in Part II presents a new and important feature, to wit: the systematic analysis of the structure and organism of derivative words, together with the statement of their primary meaning in such form that the pupil inevitably perceives its relation with the root, and in fact *makes* its primary meaning by the very process of analysing the word into its primitive and its modifying prefix or suffix. It presents, also, a marked improvement in the method of approaching the definition—a method by which the definition is seen to *grow out of* the primary meaning, and by which the analytic faculty of the pupil is exercised in tracing the transition from the primary meaning to the secondary and figurative meanings—thus converting what is ordinarily a matter of rote into an agreeable exercise of the thinking faculty.

3. The third point of novelty in the method of treatment is presented in the copious practical exercises on the *use of words*. It is believed this feature will readily commend itself to all practical teachers; and accordingly, the author refers the schoolmaster or schoolmistress to an examination of those exercises themselves. The experienced instructor very well knows that his scholars may memorize endless lists of terms and definitions without having any realization of the actual living power of words. Such a realization can only be gained by *using* the word—by turning it over in a variety of ways, and by throwing upon it the side-lights of its synonym and contrasted word. The method of thus utilizing English derivatives gives a study which possesses at once *simplicity* and *fruitfulness*—the two desiderata of an instrument of elementary discipline.

☞ The prominent points in the GRADED WORD-BOOK are:—

1. The clear and simple method of word-analysis and definition.

2. The practical exercises in spelling, defining, and the *use of words* in actual composition.

3. The adaptation of the manual, by its progressive character, to the needs of the several grades of public and private Schools.

WORD-ANALYSIS.

PART I.

I.—DEFINITIONS.

1. An English **primitive** word, or root, is a word in its simplest English form, without prefix or suffix. Give examples. *Ans.* Man, Safe, Tell, Navigate.

Part I. of the Word-Analysis takes no note of the origin of words back of the *English* language. "Navigate," for example, is derived from a Latin root—*navis* a ship, and is, with reference to *Latin*, a derivative word; but in Part I. it is treated as a primitive word for the reason that it occurs in no simpler *English* form.

2. A **prefix** is a significant syllable joined to the *beginning* of a primitive word. Give examples. *Ans.* **Un, fore, circum.**

Join the prefix **un** to the beginning of the primitive word 'safe,' and what word have you? *Ans.* **Unsafe.** Define it. *Ans. Not* safe. What, then, does the prefix **un** mean? *Ans.* It means *not.*

Join the prefix **fore** to the beginning of the primitive word 'tell,' and what word have you? *Ans.* **Foretell.** Define it. *Ans.* To tell *beforehand.* What, then, does the prefix **fore** mean? *Ans. Beforehand*, or previously.

Join the prefix **circum** to the beginning of the primitive word 'navigate,' and what word have you? *Ans.* **Circumnavigate.** Define it. *Ans.* To navigate or sail *around* the earth, or a part of it. What, then, does the prefix **circum** mean? *Ans. Around.*

3. A **suffix** is a significant syllable joined to the *end* of a primitive word. Give examples. *Ans.* **Ly, er, less.**

Join the suffix **ly** to the end of the primitive word 'man,' and what word have you? *Ans.* **Manly.** Define it. *Ans.* Man-*like*, or *like* a man. What, then, does the suffix **ly** mean? *Ans.* It means *like.* What is it originally? *Ans.* It is a shortening of the old English word *lic*, which signified *like.*

Join the suffix **er** to the end of the primitive word 'teach,' and what word have you? *Ans.* **Teacher.** Define it. *Ans. One who*

teaches. What, then, does the suffix **er** mean? *Ans.* It means *one who.*

Join the suffix **er** to the end of the primitive word 'sweet,' and what word have you? *Ans.* Sweeter. What does **er** mean in this word? *Ans.* It means *more.* When does **er** mean *more?* *Ans.* When it is joined to adjectives it means *more*, and it is said to form the "comparative degree."

Join the suffix **less** to the end of the primitive word 'money,' and what word have you? *Ans.* Moneyless. Its meaning? *Ans. Without* money. What, then, does the suffix **less** mean? *Ans. Without.*

4. A **derivative** word is one formed from a primitive word by the addition of a prefix or suffix, or both. Give examples. *Ans.* Circumnavigate, foretell, teacher, unmanly.

5. The **analysis** of words, or "word-analysis," is the separating of **derivative** words into their **prefixes, suffixes,** and **primitives.**

How is word-analysis conveniently marked in this book? *Ans.* By putting the sign + between the root and the prefix or suffix. How do you read this sign +? *Ans.* It is read *plus*, and is the sign of *addition* in mathematics.

How would you write the analysis of the word 'unsafe'? *Ans.* **Un** + **safe.** How is it read? *Ans.* "**Un** *plus* **safe.**" How would you write the analysis of 'manly'? *Ans.* **Man** + **ly.** Read how? "**Man** *plus* **ly.**" How would you write the analysis of the word 'unhappiness'? *Ans.* **Un** + **happy** + **ness.** How read? *Ans.* "**Un** *plus* **happy** *plus* **ness.**"

6. **Defining** is telling the meaning of words.

What sign is used in this book to connect the definition of a word with its analysis? *Ans.* The sign =. How do you read this sign? *Ans.* It is read *equal to*, and is the sign of *equality* in mathematics. How would you read **Un** + **happy** + **ness** = the *state of being not* happy? *Ans.* "**Un** *plus* **happy** *plus* **ness** *equal to*, the state of being not happy."

These signs will be found very convenient to use in *written* class-exercises in analysis.

7. A **synonym** is a word that signifies the same or nearly the same as another word. Can you give a synonym of 'freedom'? *Ans.* 'Liberty.' Of 'unsafe'? *Ans.* 'Insecure.' Of 'tall'? *Ans.* 'Lofty.'

8. **Etymology** treats of the *derivation* or *origin* of words. From what is 'circumnavigate' derived? *Ans.* From 'navigate.' 'Unhappiness'? *Ans.* From 'happy.'

II.—ENGLISH PREFIXES.

☞ The prefixes given in Part I. are confined to those actually used in forming derivatives from *English* primitives.

1. The Prefix a.

What does the prefix a mean? *Ans.* It means *on* or *in*.
Analyze and define ashore. *Ans.* A+shore=*on* the shore.*
Analyze and define abed. *Ans.* A+bed=*in* bed.

EXERCISE.

Analyze and define aloft; afire; afoot; aground.
Combine and define a+sleep; a+top; a+board; a+field.

2. The Prefix be.

What does the prefix be mean? *Ans.* It means *to make*.
Analyze and define bedew. *Ans.* Be+dew=to *make* moist, as with *dew*.
Analyze and define beware. *Ans.* Be+ware=to *make* one's self *wary* or watchful.

EXERCISE.

Analyze and define befit; becalm. Combine and define be+numb; be+dim.

3. The Prefix co or con.

What does the prefix co or con mean? *Ans.* It means *with* or *together*.
Analyze and define copartner. *Ans.* Co+partner=a partner *with* another.
Analyze and define conjoin. *Ans.* Con+join=to *join* one thing *with* another—to join together.

EXERCISE.

Combine and define co+heir; co+worker; co+equal; co+exist.

4. The Prefix dis.

What does the prefix dis mean? *Ans.* It means *away* or *not*.
Analyze and define dislike. *Ans.* Dis+like=*not* to like.

* To be read: "a, *plus* shore, *equal to*, on the shore."

Analyze **dissimilar**. *Ans.* Dis+similar=*away* from being *similar*, that is, *not* similar, that is, *un*like.

EXERCISE.

Analyze and define **disagree**; **displace**; **displease**; **disobey**; **disbelieve**.
Combine and define **dis+sever**. [Sever, to separate.] **Dis+arm**.
Combine **dis+ease**. "Disease" literally means what? *Ans.* *Away* from *ease*, that is, the *presence* of *pain*.

5. THE PREFIX **en** OR **em**.

What does the prefix **en** or **em** mean? *Ans.* It means *in* or *on*.
Analyze and define **entrap**. *Ans.* En+trap=to catch *in* a trap.
Analyze and define **embody**. *Ans.* Em+body=to place in a body, to incorporate.

EXERCISE.

Combine and define **en+chain**; **en+wrap**; **en+danger**; **en+camp**.
Analyze and define **encircle**; **enclose**; **entangle**; **enshrine**.

THE PREFIX **fore**.

What does the prefix **fore** mean? *Ans.* It means *before*, in regard to time and place.
Analyze and define **foretell**. *Ans.* Fore+tell=to *tell* an event *before* the time it occurs; to prophesy.
Analyze and define **foreground**. *Ans.* Fore+ground=the part of a picture which seems to be *before*, or in front of the figures.

EXERCISE.

Combine and define **fore+warn**; **fore+taste**; **fore+see**; **fore+noon**.
Analyze and define **forethought**; **foresight**; **forerunner**.

7. THE PREFIX **in** OR **im**.

What does the prefix **in** mean? *Ans.* It means *not*.
Analyze and define **insecure**. *Ans.* In+secure=*not* secure. In this use of **in**, it means the same as **un**; thus *in*secure=*un*safe.
Analyze and define **impolite**. *Ans.* Im+polite=*not* polite.

EXERCISE.

Analyze and define **invisible**. [Visible, that may be *seen*.]
'**Considerate**' means thoughtful as to the wishes and feelings of another person: what would **in+considerate** mean?

8. The Prefix mis.

What does the prefix **mis** mean? *Ans.* It means *wrong* or *wrongly.*

Analyze and define **misconduct.** *Ans.* Mis+conduct = *wrong* conduct.

Analyze and define **misspell.** *Ans.* Mis+spell = to spell *wrongly.*

EXERCISE.

Combine and define **mis** + judge; mis + calculate; mis + guide.
Analyze and define misplace; mistake; miscall; misapply.

9. The Prefix pre.

What does the prefix **pre** mean? *Ans.* It means *before.* It has the same signification as what other prefix? *Ans.* The prefix **fore.**

Analyze and define **preordain.** *Ans.* Pre+ordain = to ordain before; that is, to *fore*ordain.

EXERCISE.

Analyze and define **prefix.** *Ans.* Pre + fix, a letter or syllable fixed or placed *before* a root word. Combine and define pre+eminent; pre+judge. Analyze and define premature.

10. The Prefix re.

What does the prefix **re** mean? *Ans.* It means *again* or *anew.*

Analyze and define **renumber.** *Ans.* Re+number = to number *again.*

Analyze and define **renew.** *Ans.* Re+new = to make new *again.*

EXERCISE.

Combine and define re+elect; re+graft. Analyze and define reform: reconquer.

11. The Prefix super.

What does the prefix **super** mean? *Ans.* It means *above.*

Analyze and define **supernatural.** *Ans.* Super+natural = *above* what is *natural,* that is spiritual.

EXERCISE.

Combine and define **super + human**; **super + structure.**
Analyze and define **superfine**; **superabundant.**

12. The Prefix un.

What does the prefix **un** mean? *Ans.* It means *not*, or to deprive of, or to free from.

Analyze and define unsafe. *Ans.* Un+safe = *not* safe.

Analyze and define uncrown. *Ans.* Un + crown = to *deprive of* a crown.

EXERCISE.

Combine and define **un + taught**; **un + sound**; **un + wholesome**; **un + chain.**
Analyze and define uncommon; unknown; unintelligible. [Intelligible, that may or can be *understood.*]

REVIEW OF ENGLISH PREFIXES.

1. **A**: *on* or *in*, as ashore, abed.
2. **Be**: to *make* or *made*, as befit.
3. **Co** or **Con**: *with* or *together*, as conjoin.
4. **Dis**: *away* or *not*, as displease, dissimilar.
5. **En** or **Em**: *in* or *on*, as entrap, embody.
6. **Fore**: *before*, as foretell.
7. **In** or **Im**: *not*, as insecure, impolite.
8. **Mis**: *wrong* or *wrongly*, as misspell.
9. **Pre**: *before*, as preordain.
10. **Re**: *again*, as renumber.
11. **Super**: *above*, as supernatural.
12. **Un**: *not* or to deprive of, as unsafe, uncrown.

III.—ENGLISH SUFFIXES.

RULES OF SPELLING USED IN FORMING DERIVATIVE WORDS.

Rule I.—Final "e" followed by a Vowel.

Final *e* of a primitive word is *dropped* on taking a suffix beginning with a *vowel*. EXAMPLE—Blame+able=blamable; guide+ance=guidance; come+ing=coming; force+ible=forcible; obscure+ity=obscurity.

Exception 1.—Words ending in *ge* or *ce* usually retain the *e* before a suffix beginning with *a* or *o*, for the reason that *c* and *g* would have the hard sound if the *e* were dropped. EXAMPLES—peace+able =peaceable; change+able=changeable; courage+ous=courageous.

Exception 2.—Words ending in *oe* final retain the *e* to preserve the sound of the root; as shoe+ing=*shoeing;* hoe+ing=*hoeing.* The *e* is retained in a few words to prevent their being confounded with similar words, as singe+ing=*singeing*, to prevent its being confounded with *singing.*

Rule II.—Final "e" followed by a Consonant.

Final *e* of a primitive word is *retained* on taking a suffix beginning with a *consonant.* EXAMPLES—Pale+ness=paleness; large+ly=largely.

Exception 1.—When the final *e* is preceded by a vowel, it is *sometimes* omitted. EXAMPLES—Due+ly=duly; true+ly=truly; whole+ly=wholly.

Exception 2.—A few words ending in *e* drop the *e* before a suffix beginning with a consonant. EXAMPLES—Judge+ment=judgment; lodge+ment=lodgment; abridge+ment=abridgment.

Rule III.—Final "y" preceded by a Consonant.

Final *y* of a primitive word, when *preceded* by a *consonant*, is generally changed into *i* on the addition of a suffix.

Exception 1.—Before *ing* or *ish*, the final *y* is *retained* to prevent the doubling of the *i.* EXAMPLE—pity+ing=pitying.

Exception 2.—Words ending in *ie* and dropping the *e* by rule 1, change the *i* into *y* to prevent the doubling of the *i*. EXAMPLES—Die+ing=dying; lie+ing=lying.

Exception 3.—Final *y* is sometimes changed into *e*; as duty+ous=duteous; beauty+ous=beauteous.

Rule IV.—Final "y" preceded by a Vowel.

Final *y* of a primitive word, when preceded by a *vowel*, should *not* be changed into an *i* before a suffix. EXAMPLE—Joy+less=joyless.

Rule V.—Doubling.

Words of one syllable (monosyllables), and words accented on the *last syllable*, when they end with a single consonant, preceded by a single *vowel*, or by a vowel after *qu*, double their final letter before an *additional* syllable that begins with a vowel. EXAMPLES—Rob+ed=robbed; fop+ish=foppish; squat+er=squatter; prefer'+ing=preferr'ing.

Exceptions.—*X* final, being equivalent to *Ks*, is never doubled; and when the derivative does not retain the accent of the root, the final consonant is not always doubled; as prefer'+ence=pref'erence.

Rule VI.—No Doubling.

A final consonant, when it is *not* preceded by a *single vowel*, or when the *accent* is *not* on the *last* syllable, should remain *single* before an additional syllable; as, toil+ing=toiling; cheat+ed=cheated; murmur+ing=murmuring.

1.—The Suffix able or ible.

☞ The suffixes given in Part I. are confined to those actually used in forming derivatives from English primitives.

What does the suffix **able** or **ible** mean? *Ans.* It means, 1. that *may* or *can* be or *is to* be; 2. *worthy of.*

Analyze and define **tamable.** *Ans.* Tame + able = that *may* or *can* be *tamed.* Why is the final *e* dropped? *Ans.* According to rule I. Give it.

Analyze and define **contemptible.** *Ans.* Contempt + ible = *worthy of* contempt; that is, worthy to be despised.

EXERCISE.

Combine **pay + able; rely + able.** Why is the *y* changed into *i*? *Ans.* According to rule III. Give it. Define 'reliable.' *Ans.* That *may be relied on.*

Combine and define **change + able.** Why is the final *e* of change *not* dropped? *Ans.* According to exception 1 to rule I. Give it.

2.—The Suffix age.

What does the suffix **age** mean? *Ans.* It means the *condition* of being, or an *allowance for*, or a *collection.*

Analyze and define **peerage.** *Ans.* The whole collection or body of *peers.*

Analyze and define **wharfage.** *Ans.* An *allowance* for permitting goods to be landed or stored on the wharf.

EXERCISE.

Combine and define **bond + age; post + age; fruit + age; store + age.**

3.—The Suffix al.

What does the suffix **al** mean? *Ans.* It means, 1. when combined with a noun, *relating* or *belonging to;* 2. combined with a verb, *the act of.*

Analyze and define **personal.** *Ans.* Person + al = *relating to* a person.

Analyze and define **renewal.** *Ans.* Renew + al = *the act of* renewing.

EXERCISE.

Combine **form** + **al**. *Ans.* Formal, *relating to* the mere *form* of a thing.

Unite the suffix **al** with the verb 'peruse,' meaning to read with care, and what noun have you? Define it. Why do you drop the *e* in peruse? Combine and define **remove** + **al**; **refuse** + **al**.

4.—The Suffix ar or ard.

What does the suffix **ar** or **ard** mean? *Ans.* It means *one who.*

Analyze and define **liar**. *Ans.* Lie + ar = *one who* lies. Why do you drop the final *e* in lie?

Analyze and define **drunkard**. *Ans.* Drunk + ard = *one who* gets drunk, a habitual drinker of strong liquors.

EXERCISE.

Combine and define **beg** + **ar**. Why do you double the *g* in beg?

Combine **cow** + **ard**. *Ans.* Coward, one who *cows* or shrinks before danger or an enemy.

5.—The Suffix an or ian.

What does the suffix **an** or **ian** mean? *Ans.* It means *one who*, when it forms a noun, and *belonging to*, when it forms an adjective.

Analyze and define the noun **Christian**. *Ans.* Christ + ian = *one who* follows the religion of Christ.

Analyze and define the adjective **republican**. *Ans.* Republic + an = belonging or *relating* to a *republic.*

EXERCISE.

Combine **library** + **an**. Why is the final *y* changed to *i*? What part of speech is 'librarian'? What does 'librarian' mean? Analyze and define **historian**. Combine and define **Mahomet** + **an**; **rhetoric** + **ian**.

6.—The Suffix ary.

What does the suffix **ary** mean? *Ans.* It means, 1. in nouns, *one who* or *that which*; 2. in adjectives, *relating to.*

Analyze and define **missionary**. *Ans.* Mission + ary = *one who* does the work of a religious mission.

Analyze and define **planetary**. *Ans.* Planet + ary = *relating* to the planets.

EXERCISE.

Combine **adverse**, meaning opposed to, and the suffix **ary**, and what noun will you have? Define 'adversary.' Why do you drop the final *e*?
Analyze and define boundary; tributar

7.—The Suffix dom.

What does the suffix **dom** mean? *Ans.* It means *condition* or *possession.*

Analyze and define wisdom. *Ans.* wis (old English for *wise*) + dom = the *condition* of being *wise.*

Analyze and define dukedom. *Ans.* The *possession* or the estate of a *duke.*

EXERCISE.

Combine and define **king** + **dom**; **martyr** + **dom**; **free** + **dom**

8.—The Suffix en.

What does the suffix **en** mean? *Ans.* It means, 1. in verbs, *to make;* 2. in adjectives, *made.*

Analyze and define blacken. *Ans.* Black + en = *to make* black.

Analyze and define wooden. *Ans.* Wood + en = *made* of wood.

EXERCISE.

Combine and define **short**+**en**; **length**+**en**; **glad**+**en**; **deep**+**en.**
Analyze and define **brazen.** *Ans.* Brass+en = *made* of brass.

9.—The Suffix er, in Nouns.

What does the suffix **er** mean? *Ans.* It means *one who*, or *that which.*—Note. The suffixes **eer**, as in auctioneer, and **ee**, as in payee, are different forms of the suffix **er.**

Analyze and define teacher. *Ans.* Teach+er = one who teaches.

Analyze and define dipper. *Ans.* Dip+er = that which dips up water. Why do you double the final *p* of dip?

EXERCISE.

Combine and define **curry**+**er.** Why do you change the final *y*?
Combine and define **buy**+**er.** Why do you not change the final *y*?
Combine and define **love**+**er.** Why do you drop the final *e*?
Combine and define **rob**+**er.** Why do you double the final *b*?
Analyze and define **reader.** *Ans. One who* reads; *that in which* we read.

10.—The Suffix er, in Adjectives.

What does the suffix **er** mean when affixed to an adjective? *Ans.* It means *more.* What degree of comparison is it said to form? *Ans.* The *comparative* degree.

Analyze and define **greater.** *Ans.* More great,—literally, *ere* or *before another* in regard to greatness.

Analyze and define **rather.** *Ans.* There was an old English word *rathe*, meaning *soon* or *early*, thus Milton speaks of the "rathe primrose," meaning the *early* primrose. 'Rather' is the comparative degree of *rathe:* hence 'rather' means *sooner* or *earlier.* "I *would rather* do" so and so means the same as I would *sooner* do so and so.

EXERCISE.

Combine and define gentle + er. Why do you drop the final *e*? Analyze and define sounder. Combine and define pleasant + er; profound + er.

11.—The Suffix ery.

What does the suffix **ery** mean? *Ans.* It means—1. The place where; 2. state of being.

Analyze and define **bakery.** *Ans.* Bake+ery = a *place* where baking is carried on.

Analyze and define **knavery.** *Ans.* Knave+ery = *state of being* a knave.

EXERCISE.

Combine and define brew + ery; fish + ery. Analyze and define slavery.

12.—The Suffix ful.

What does the suffix **ful** mean? *Ans.* It means *full of, marked* by, or *of the nature of.* From what word is it abbreviated? *Ans.* From the word *full.*

Analyze and define **merciful.** *Ans.* Mercy+ful = *full of* mercy.

Analyze and define **joyful.** *Ans.* Joy+ful = of a joyous *nature.*

Analyze and define **fearful.** *Ans.* Fear+ful = *marked* by fear.

EXERCISE.

Combine and define plenty + ful. Why do you change *y* into *i*?

V.—ENGLISH DERIVATIVES.

TEACH, *v.*, to instruct.

1. TEACHABLE: ANALYSIS: teach+able=that *may be* taught. DEFINITION: that has a spirit *willing* to be *taught.*
2. TEACHABLENESS: teach+able+ness=the *state* of being (ness) willing to be taught.
3. TEACHER: teach+er=*one who* teaches. DEFINITION: a schoolmaster or schoolmistress.
4. TEACHING, *noun*: the act or business of instructing; instruction.
5. UNTAUGHT: Un+taught=*not* taught. DEFINITION: ignorant. 'Taught' is the past participle of the irregular verb *teach.*

EXERCISE.

[*The figures refer to corresponding numbers in the analysis above.*]

(1.) Give a synonym of the word *teachable.* *Ans.* 'Docile.' Would you say of a dog that it was *teachable* or *docile*—which? Combine and define un+teachable.

(3.) Give two synonyms of 'teacher.' *Ans.* 'Instructor;' 'educator.'

(4.) Write a sentence containing the word *teaching* as a noun. MODEL—"Nearly all the able men in the United States were, in their younger days, engaged in the profession of *teaching*."

OBS.—Observe the distinction between *teach* and *learn*. To *teach* is to *impart* instruction; to *learn* is to *receive* instruction. Would it be correct to say, "Mr. Dupont *learnt* me French"? State the correct form.

SCHOOL, *n.*, a place for the education of youth.

1. SCHOLAR: School+ar=*one who* goes to *school*. In forming this word, one of the o's is dropped. What other meaning has *scholar*? *Ans.* It means, not a child who is going to school, but a person who has been through the schools,—hence, a "learned man."
2. SCHOLARLY: Scholar+ly=in a scholar-*like* manner. What part of speech is 'scholarly'? *Ans.* An adjective. Why? Because ly is added to a noun. (See the suffix ly, page 21.)
3. SCHOLARSHIP: Scholar+ship=the *state* or condition of being a scholar. DEFINITION: learning, attainments in literature.
4. UNSCHOOLED: Un+school+ed=not schooled or taught; illiterate.

EXERCISE.

(1.) Give a synonym of 'scholar' in its first meaning. *Ans.* A *pupil*.

Write sentences containing the word 'scholar' in both its meanings. MODEL—"James Watt is said to have been a poor *scholar*, yet his genius invented the steam engine." "Gibbon, one of the greatest *scholars* of the 18th century, wrote the 'Decline and Fall of the Roman Empire.'"

What is the *opposite* of 'scholar' in the sense of learned man? *Ans.* An *unlearned* man, an *ignoramus*, a *dunce*.

(2.) What is the opposite of 'scholarly'? *Ans.* Untaught, unlearned

(3.) Write a sentence containing the words *scholarship* and *education*.

HEALTH, *n.*, sound state of the body.

1. From what root-word does 'health' come? *Ans.* It comes from *heal*. With what words is *heal* connected? *Ans.* With the word *hale*, and also with *whole*, that is, *sound*. Can you give a quotation from the Bible to show this? *Ans.* "They that are *whole* need not the physician, but they that are *sick*."
2. HEALTHY: health+y=*partaking* of health.
3. HEALTHFUL: health+ful=of a healthy *nature*.
4. HEALTHFULLY: health+ful+ly=in a healthful *manner*.

5. HEALTHFULNESS: health+ful+ness=the *condition* of health.
6. HEALTHINESS: the *condition* of being healthy.
7. UNHEALTHY: un+health+y=*not* healthy.

EXERCISE.

(2.) Is there any distinction between *healthy* and *healthful*? *Ans.* There is no distinction in meaning: we can say a *healthy* body or climate or diet, and a *healthful* body or climate or diet.

(3.) Mention three synonyms of *healthy* and *healthful*. *Ans.* 'Wholesome,' 'salubrious,' 'salutary.'

Can you give the difference in the uses of these words? *Ans.* *Wholesome* is particularly applied to food, as a "*wholesome* diet." *Salubrious* is stronger than *wholesome*; it means not only what keeps us in health (wholesome), but what *improves* our health; as a "*salubrious* air." *Salutary* is what serves to remove a disorder; thus we speak of "salutary remedies."

Supply the proper word in each of the following sentences: "You are relaxing yourself with the —— exercise of the field." "The simplest diet is reckoned the most ——." "The air of Southern France has been long famed for its ——." "Washington's punishment of the British at Trenton taught them a —— lesson."

(5 & 6.) If there is no difference between *healthy* and *healthful*, can there be any between *healthiness* and *healthfulness*? *Ans.* No. Why not? *Ans.* Because the suffix is the same in each.

(7.) What is the *negative* of *healthy*? *Ans.* *Un*healthy. What is the *negative* of *wholesome*? *Ans.* *Un*wholesome. What is the *negative* of *salubrious*? *Ans.* *In*salubrious.

PAY (past part., *paid*), *v.*, to defray a debt.

4. PAYMENT: pay+ment=the *act* of paying.
5. PREPAY: pre+pay=to pay *beforehand*.
6. REPAY: re+pay=to pay *again*.
7. Unpaid: un+paid=*not* paid.

EXERCISE.

(1.) Is *pay* any other part of speech than a verb? *Ans.* It is also a noun. Give three synonyms of *pay* as a noun. *Ans.* 'Salary,' 'wages,' and 'stipend.'

(3.) Give a synonym of 'payment.' *Ans.* *Defrayment.* How could you express in other language the sentence "John made payment of his debt?" *Ans.* "John *liquidated* his debt."

(4.) Combine prepay + ment, and what word have you? Define it.

(5.) Combine repay + ment, and what word have you? Define it. Is there a figurative use of *repay*? *Ans.* There is: we speak of "repaying a kindness." What synonym of repay is there in the sense of giving back *money*? *Ans.* To 'reimburse.'

BOUND: to limit, or a limit.

1. BOUNDS: the plural of the *noun* bound.
2. BOUNDED: bound + ed = limit*ed* or confined.
3. BOUNDARY: bound + ary = *that which* limits or bounds.
4. BOUNDLESS: bound + less = *without* bounds, limitless.
5. UNBOUNDED: un + bound + ed = not bounded, unlimited.

EXERCISE.

(1.) Give two synonyms of bounds as a *noun*. *Ans.* Limits; confines.

(3.) Spell the plural of *boundary*. Give the rule for changing *y* into *i*. Compose a sentence containing the word 'boundary.' MODEL—"The *boundary* between Maine and the British Possessions was arranged by Daniel Webster and Lord Ashburton in 1842."

(4.) How do you show that *boundless* and *limitless* are synonyms? *Ans.* The suffix is the same and bound = limit. Give two corresponding expressions for *boundless* in the sentence, "Alexander's ambition was boundless." *Ans.* "Alexander's ambition *knew no bounds*;" "*there were no limits* to Alexander's ambition."

Combine and define boundless + ness.

HELP, aid, *n.*, or to aid, *v.*

1. HELPER: help + er = *one who* helps; an assistant.
2. HELPING: help + ing = aid*ing* or assist*ing*.
3. HELPFUL: help + ful = *abounding in* help; of a kind that aids or assists.
4. HELPLESS: help + less = *without* help.
5. HELPLESSNESS: help + less + ness = *state of being* (ness) *without* (less) help.

EXERCISE.

(1.) Give two synonyms of 'helper.' *Ans.* An *assistant*, an *aid*.

(2.) Give a synonym of the adjective 'helping.' *Ans. Auxiliary.* An "*auxiliary* verb" might be called a —— what kind of verb? "Lend a *helping* or an *auxiliary* hand"—which?

(3.) That which does the opposite of 'helping' is said to do what? *Ans.* To *hinder*, to *obstruct*.

(5.) Give a synonym of 'helplessness.' *Ans. Inability.* Give two words meaning the *contrary* of "helplessness." *Ans. Strength, power.*

PURE, *adj.*, clean, free from mixture.

1. PURE: Pure has two meanings: 1, the *literal* meaning, which is, *clean* or free from mixture, as "*pure* water;" 2, the *figurative* meaning, which is, free from moral defilement, as a "*pure* motive." Many of its derivatives have the same two-fold signification.
2. PURELY: pure+ly=pure-*like*, in a pure manner.
3. PURENESS: pure+ness=the *state* of being pure.
4. PURITY: pure+ity=the *quality* of being pure. Why is the final *e* dropped?
5. Purify: Pure+ify=to *make* pure. What does the suffix **fy** or **ify** mean? *Ans.* To *make.*
6. IMPURE: im+pure=*not* pure, corrupt.

EXERCISE.

(1.) 'Pure' has two meanings. What are they? Write sentences containing the word in each sense.

(3 & 4.) What is the distinction between 'pureness' and 'purity'? *Ans.* There is none; we speak of *pureness* or *purity* of water, life, style, etc. Write a sentence containing the word 'pureness.' MODEL—"The *pureness* of the atmosphere on the top of high mountains has often been remarked." Explain what is meant by *purity* in the sentence, "Addison's writings are distinguished for the *purity* of their style." Give the *opposite* of 'purity.' *Ans. Impurity, foulness.*

(5.) Name a noun formed from 'purify.' *Ans. Purification.*

1. SAFELY: safe+ly=safe-*like*, in a safe manner.
2. SAFETY: safe+ty=the *state of being* safe.
3. UNSAFE: un+safe=not safe.

EXERCISE.

(1.) Give a synonym of 'safely.' *Ans. Securely.* Give the negative of 'safely.' *Ans. Unsafely.* Give the opposite of 'securely.' *Ans. Insecurely.* We fasten the doors—how? *safely* or *securely?*

(2.) Give a synonym of 'safety.' *Ans.* *Security.* Tell the difference between *safety* and *security.* *Ans.* In the sense of freedom from danger, *safety* expresses much less than *security:* we may be safe without using any particular measures; but none can reckon on *security* without great precaution. A person may be very *safe* on the top of a coach in day-time; but if he wish to *secure* himself at night from falling off, he must be fastened.

(3.) Write a sentence containing the word 'unsafe.' Combine unsafe+ness.

JUDGE, *v.*, to hear and determine a case.

1. JUDGE, *v.*, to hear and determine a case; to form an opinion.
2. JUDGE: *n.*, a civil officer clothed with authority to try and determine cases; one who has skill to decide questions.
3. JUDGMENT: judge+ment=the *act* of judging, or the faculty of the mind used in judging. Why is the final *e* of judge dropped before the suffix *ment?* *Ans.* According to Rule II., Exception 2. Give it.
4. JUDGESHIP: judge+ship=the *office* of a judge.
5. ADJUDGE: ad+judge=to judge *to*, that is, to determine, to decide. What does the prefix **ad** mean? *Ans.* It means *to.*
6. PREJUDGE: pre+judge=to *fore*-judge, that is, to judge in a case *before* it is heard.
7. REJUDGE: re+judge=to judge *again;* to reëxamine, to review.

EXERCISE.

(1.) Write a sentence containing the *verb* 'judge' in its two senses. MODEL—"God shall *judge* the righteous and the wicked."—*Bible.* "On the 11th of October, 1492, Columbus *judged* from the appearance of the sea, the sight of land-birds, etc., that he would that night reach the shores of Eastern Asia."

6. FRIDAY. What does 'Friday' mean? *Ans.* Friga's-dæg. Friga, a goddess of Northern European mythology.

7. SATURDAY. What does 'Saturday' mean? *Ans.* Saeter or Saturn's day. Saturn, a Greek god.

8. DAISY. What does 'daisy' mean? *Ans.* *Dægs*-eye=the eye of day. So called because the shape of the daisy was thought to be like the sun.

HOUSE.

HUSBAND. Explain how 'husband' came from *house*. *Ans.* The Saxon word for house was spelled *hus*: combining hus+band, and we have 'husband'=the band or bond of the *house*; that is, the head of the house.

WEAVE, to unite threads.

1. WIFE. From what is 'wife' derived? *Ans.* From the Saxon verb *wefan*, the same word from which 'weave' comes. Its original meaning? *Ans.* One who weaves.
2. WOOF. 'Woof' also comes from *wefan*, to weave, and means the 'threads that cross the warp in *weaving*.'
3. WEBSTER. From wefan comes the Saxon or English word 'web,' meaning anything *woven*; the suffix **ster** means *one who*: web+ster=one who *weaves*, that is, a weaver. Originally it meant a *female* who weaves.
4. WOMAN: wife+man, contracted *woman*. The original meaning is a female of the human or *man*kind. Combine and define **woman+ly; woman+ish; woman+hood.**

WISE, possessing knowledge.

1. WISDOM. The Saxon word for 'wisdom' was wis+dom=wisdom, the possession of knowledge. 'Wis' is connected with *witan*, to know.
2. WIT: from the Saxon verb *witan*, to know. It originally meant sense or knowledge. Thus we speak of a person having "his wits about him." It now means intellectual keenness, and humor. Combine and define **wit+y; wit+y+ness.**
3. WIZARD: wise+ard=wizard; literally, one who *knows*; secondary meaning, a *conjurer* or *sorcerer*.

RED, a color.

1. RED was spelled *read* in old English, but sounded as we sound *red*. Another form of red was *rude* (pronounced *ruddy*).
2. REDDISH: red+ish=*somewhat* red. Why do you double the final *d*?

3. REDDEN: red+en=to *make* red. Can you give a synonym of 'red' in the sense of making red with blood? *Ans.* 'Incarnadine.'
4. RUDDY: from the Saxon 'rude,' meaning red=of a red color. Has the word as wide an application as red? *Ans.* It has not; it is applied chiefly to the human countenance, as "*ruddy* cheeks."

Combine and define **red+ness; ruddy+ness.**

BURN, to consume with fire.

1. BROWN: of a darkish color, as though *burnt* by the sun. Can you mention a synonym of 'brown'? *Ans. Auburn.* What is the difference?
2. BRUNT: the heat of an onset. What does the "*brunt* of a battle" mean? *Ans.* Where the fight is raging *hot.*
3. BRAND: a piece of *burning* wood. *To brand:* to mark with a hot iron.

Combine and define **burn+er; brown+ish; brown+ness.**

LONG, the opposite of short.

STRONG, powerful.

STRENGTH. What was the Saxon word for 'strong'? *Ans.* Strang. What does 'strength' literally mean? *Ans.* That which maketh *strong* or *strang*, that which *strengeth.*

MOON, the earth's satellite.

MONTH. From what is 'month' derived? *Ans.* From *mona*, the Saxon word for moon: *monath*, the course or run of the moon, contracted *month.*

BLACK, a color.

1. BLACK was written in Saxon *blac.* This word meant not only black, but pale, wan, livid.
2. BLACKNESS: black+ness=the quality of being black.

3. BLEACH: to make *blac* or pale, by removing the color. It is applied particularly to cloth.
4. BLEAK: dark, hence cheerless. This word is specially applied to scenery, as a *bleak* hill or shore. A bleak wind is applied to a wind blowing over a wide bleak waste.

Combine and define bleach + er; bleak + ness; bleak + ly.

WEND, *v.*, to turn or go.

WENT. Explain the word 'went.' *Ans.* Went is called the imperfect tense of the irregular verb to go; but it is really the imperfect tense of the verb to *wend*.

How do you show this? *Ans.* 'Went' is *wended* contracted, *went*. "He wended his way" is the same as what? *Ans.* "He *went* his way"

GIVE, to grant.

1. IF. How is the word 'if' related to the word *give*? *Ans.* It is contracted from *gif*, the imperative mood of the Saxon verb *gifian*, to give or grant. *Gif* means give or grant. "*If* you study you will improve" is the same as, "*grant that* you study, you will improve."
2. GIFT. From the Saxon verb 'gifian' = something *given*.

4. SHRED is that which is *sheared* or *shorn* from the main piece.

POST, that which is placed.

'Post' is a piece of timber *placed* in the ground. A military station is a *post*, for men are *placed* in it. To travel *post* is to have

certain relays of horses placed at certain intervals, that so no delay on the road may occur. The *post*-office was originally an office for sending letters by *post*, that is, by relays of horses. To *post* a ledger is to *place* or register its various items.

ONE, single.

1. ONLY. How is 'only' connected with 'one'? *Ans.* 'Only' is one+ly=one-like, that is, sole or singular.
2. ATONEMENT. What is the composition of 'atonement?' *Ans.* At+one+ment=the setting *at one* those who were at twain before, namely God and man.

PART II.

LATIN DERIVATIVES.

I.—EXPLANATIONS.

1. It has been seen that an English primitive word is a word in its simplest English form. 'Educate' is an English primitive because the word is in its simplest English form. 'Education,' 'educator,' and 'uneducated' are derivatives from 'educate.'

2. But the word 'educate' can be traced back to a simpler form in the *Latin language.* It comes from the Latin verb *duco*, I lead or draw, and the prefix *e*, meaning forth or out. 'Educate' means, therefore, to *draw out the faculties of the mind.*

3. A Latin primitive is a Latin word used to form English derivatives. *Duco* is a Latin primitive. It gives us a number of English derivatives, as *educe*, to draw out; *induce*, to draw in; *deduce*, to draw down; *ductile*, that may be drawn, etc.

4. We are now to study English derivations from Latin primitives.

OBS.—To pursue this study does not require any knowledge of Latin. All that is required is to learn the meaning of single Latin words, and then analyze the English derivatives formed from them.

5. Latin primitives will be verbs or nouns or adjectives.

In giving Latin verbs we shall give the present indicative and another part called the *supine*, which corresponds nearly to the English infinitive. Thus *duco*, I lead; *ductum*, to lead. To find the real root used in composition with prefixes and suffixes to form English derivatives, it is sometimes necessary to strike off one or more of the final letters. Thus the roots of *duco—ductum* are **duc-** and **duct-**. EXAMPLE—From *duc* we get such words as educate=e+duc+ate; from *duct* we get such derivatives as ductile=duct+ile. The *root used* will be given in the case of each Latin primitive verb.

6. In giving Latin nouns and adjectives we shall give the nominative case and the possessive, or, as it is called, the *genitive*, case; for the reason that sometimes the real root used is found in the genitive case. Thus the Latin noun for heart is *cor:* genitive case, *cordis* —root used **cord-**, from which we get such derivatives as *cordial, concord*, etc.

Pronunciation of Latin Words.

1. Every word in Latin must have as many syllables as it has vowels or diphthongs; as, *viva voce*, pronounced *vi'va vo'ce.*

2. *C* is pronounced like *k* before *a*, *o*, *u*; and like *s* before *e*, *i*, *y*, and the diphthongs *æ* and *œ*; as, *cădo*, pronounced *ka'do*; *cedo*, pronounced *se'do.*

3. *G* is pronounced hard before *a*, *o*, *u*, and soft like *j* before *e*, *i*, *y*, *æ*, *œ*; as *gusto*, in which *g* is pronounced as in *August*; *gero*, pronounced *je'ro.*

4. A consonant between two vowels must be joined to the latter; as, *bene*, pronounced *be'ne.*

5. Two consonants in the middle of a word must be divided; as, *mille*, pronounced *mil'le.*

6. The diphthongs *æ* and *œ* are sounded like *e*; as, *cædo*, pronounced *ce'do.*

7. Words of two syllables are accented on the first; as, *ager*, pronounced *a'jer.*

8. When a word of more than one syllable ends in *a*, the *a* should be sounded like *ah*; as *musa*, pronounced *mu'sah.*

9. *T*, *s*, and *c*, before *ia*, *ie*, *ii*, *io*, *iu*, and *eu*, preceded immediately by the accent, in Latin words as in English, change into *sh* and *zh*; as, *fa'cio*, pronounced *fa'sheo*; *san'cio*, pronounced *san'sheo*; *spa'tium*, pronounced *spa'sheum.*

NAUSEA: disposition to vomit. Literally, sea-sickness—from Greek *naus*, a ship.

AMPHIBIOUS: from Greek *amphi*, double, and *bios*, life; literally, having a double life, that is, having the power of living in two elements.

CALCULATE: from the Latin *calculi*, pebbles used by the ancients to aid them in their mathematical computations.

PREPOSTEROUS: from the Latin *præ*, before, and *posterus*, behind; its literal sense is, putting that before which ought to be behind, that is, putting "the cart before the horse."

TANTALIZE: from Tantalus, whose dreadful punishment it was to be continually in sight of water, and yet never allowed a drop thereof.

DAHLIA: from the proper noun Dahl, a Swede, who introduced the cultivation of the dahlia.

GUILLOTINE: from Guillotin, the name of a French doctor who invented that instrument of death.

TARIFF: from *Tarifa*, a Moorish name for a fortress on a promontory in Southern Spain, running into the Strait of Gibraltar. From this fortress the Moors, while they held rule in Spain, used to watch merchant-ships passing into or out of the Mediterranean Sea, and levy a tax on them: hence the meaning of "tariff."

MAXIM: from the Latin *maximum*, greatest, that is, a saying having a great deal of meaning in a few words.

CURFEW: from the French *couvre* and *feu*, that is, "cover up the fire." In old times, in England, whenever

> "The *curfew* tolled the knell of parting day,"

(and the bell rang regularly at eight o'clock every night) the good folks quietly raked up and covered over their fires and retired to bed.

GOOD-BYE: the literal meaning of this salutation is, *God be wi'* (or with) *you*.

III.—EXERCISES ON SYNONYMS.

Tame—gentle.

Tameness is produced by discipline; *gentleness* belongs to the natural disposition.

Would you say "the lamb is *tame* in its disposition"? Give the fitting word, and tell why.

Would you say "the lion was made *gentle* by the rod of his keeper"? Give the fitting word, and tell why.

Invent—discover.

To *invent* is to produce something that did not exist before; to *discover* is to bring to light something that *existed* but was *hidden*.

Would you say "Morse *discovered* the telegraph"? Give the fitting word, and tell why.

Would you say "Newton *invented* the law of gravitation"? Give the fitting word, and tell why.

Courage—fortitude.

Courage enables us to meet danger; *fortitude* gives us strength to endure pain.

Would you say "the Indian shows *courage* when he endures the torment without flinching"? Give the fitting word, and tell why.

Would you say "the three hundred under Leonidas displayed *fortitude* in opposing the entire Persian army"? Give the fitting word, and tell why.

Pride—vanity.

Pride makes us esteem ourselves; *vanity* makes us desire the esteem of others. Can you imagine that a man might be too *proud* to be *vain*?

Custom—habit.

Custom refers to an action; *habit* refers to a disposition formed in the mind of a person.

Supply the proper words: "By the —— of walking in the streets, one acquires a —— of idleness.

Blanch—whiten.

To *blanch* is to make white by withdrawing coloring matter; thus the cheek is *blanched* with fear, that is, by the withdrawing of the blood. To *whiten* is to cover with a white color; as to whiten a wall.

Enough—sufficient.

Enough has reference to the amount one *wishes* to have; *sufficient* has reference to what one *needs*. Accordingly, 'enough' generally implies more than 'sufficient.' The miser may have *sufficient*, but he never has *enough*.

Genuine—authentic.

A *genuine* work is one written by the author whose name it bears; an *authentic* work is one which relates truthfully the matter of which it treats.

Character—reputation.

Character means those traits that are peculiar to any person—it is a positive description of something; *reputation* is what is thought *about* one—its source is hearsay. It is possible for a man to have a fair *reputation* who has not in reality a good *character;* although men of really good *character* are not likely to have a bad *reputation*.

Conscientious—scrupulous.

Conscientious is to *scrupulous* as a whole to a part. A *conscientious* man is so altogether; a *scrupulous* man may have only particular *scruples*. The Pharisees were *scrupulous* without being *conscientious;* we must therefore strive to be *conscientious* without being over *scrupulous*.

Felicitate—congratulate.

To *felicitate* another is to wish him happiness, without affirming that his happiness is also ours; to *congratulate* implies that a person is sharer in another's joy. *Felicitations* are a little better than compliments; *congratulations* are the expressions of genuine sympathy and pleasure.

Ability—capacity.

Ability respects action; *capacity* has reference to thought. *Ability* always supposes something able to be done; *capacity* is a mental endowment, and always supposes something ready to receive or hold. We say an *able* commander, an *able* statesman; a man of a *capacious* mind, a great *capacity* of thought. "The object is too big for our *capacity*, when we would comprehend the circumference of a world."—ADDISON.

Silence—taciturnity.

Silence expresses less than *taciturnity:* the *silent* man does not speak; the *taciturn* man will not speak.

Truth—veracity.

Truth belongs to the thing; *veracity* to the person: the *truth* of a story is admitted upon the *veracity* of the narrator.

Modest—bashful.

Modesty is a habit or principle of the mind; *bashfulness* is a state of feeling. A *modest* deportment is always commendable; a *bashful* disposition is not desirable. *Modesty* is a proper distrust of ourselves, *bashfulness* an improper distrust. A man truly *modest* is as much so alone as when he is in company.

Excuse—pardon.

We *excuse* a small fault; we *pardon* a great fault. We exercise good nature in *excusing;* we exercise generosity or mercy in *pardoning.* The violation of good manners is *inexcusable* in those who are cultivated; falsehood is *unpardonable* even in a child.

Civil—polite.

Polite expresses more than *civil:* it is possible to be *civil* without being *polite. Politeness* supposes *civility* and something more. *Civility* is contented with pleasing when the occasion offers; *politeness* seeks the opportunity to please.

Treasure—hoard.

The idea of laying up carefully is common to these words; but to *treasure* is to lay up for the sake of accumulating. We *treasure* up the gifts of a friend; the miser *hoards* up his money.

Lifeless—inanimate.

Lifeless implies the absence of life where it has once been; *inanimate*, its absence where it has never been. A person is said to be *lifeless* or dead from whom life has departed; the material world consists of objects which are by nature *inanimate*.

Education—instruction.

Education literally means a *drawing out*. It has reference to the discipline and development of the faculties of the mind. *Instruction* literally means a *building up*, that is, the storing of the mind with information. A person may be *instructed* in many things without being, after all, really *educated*.

Worth—value.

The *worth* of anything depends upon its real merit; its *value* is determined by what it would bring. Worth is permanent; value is changeable.

EXERCISE.

Washington valued the sterling ——— of Greene.

The ——— of a book is immediately depreciated by the publication of a better one on the same subject.

Veracity—truth.

Veracity regards persons; *truth* regards things. Truth *is;* veracity does. We speak of the truth of history, but of the veracity of the historian.

EXERCISE.

Many accounts of travellers have been rejected as fabulous till other voyages have confirmed their ———.

As his ——— has never been called in question, we have no reason to doubt the ——— of the assertion.

To lay—to lie.

The confusion in the use of these verbs has arisen from the fact, that the present tense of the first verb is spelt and pronounced exactly in the same way as the past tense of the second; the parts of both verbs are as follows:—

Pres.	*Past.*	*Part.*
Lay	laid	laid
Lie	lay	lain

To *lay* is a transitive verb, and means *to place down;* to *lie* is an intransitive verb, and means *to place one's self down.*

1. *Lay* down the book =Place the book down.
   I *laid* down the book =I placed the book down.
   The book was *laid* down =The book was placed down.
2. *Lie* down =Place yourself down.
   I *lay* down =I placed myself down.
   I had *lain* down =I had placed myself down.

EXERCISE.

He had not ——— down a quarter of an hour before the bell rang for dinner.
I intend to ——— in a supply of coal for the winter.
Now I ——— me down to sleep.
Alexander ——— a plan for a splendid empire.

To expect—to hope.

We *expect* what we think will probaby occur; we *hope* what we strongly desire to happen. We may expect an occurrence which will give us pain—we do not 'hope' for it.

EXERCISE.

The storm raged with such violence that none of the passengers ——— the vessel would outlive the gale.
Every man ——— to withdraw from the bustle of life and spend his old age in quiet ease.

To have—to possess.

To *possess* is a species of *having:* what we have does not always belong to us; but we have entire power over what we possess.

EXERCISE.

I ——— a small parcel at home belonging to you, which shall be sent to your house early in the morning.

He is in all respects an excellent man, and ——— every desired qualification.

To bury—to inter.

To *bury* is to conceal in the earth; to *inter* is to put into the earth with ceremony. Interring is a species of burying. A miser may bury his money; those who are buried with religious ceremonies are interred. Dogs are never interred, though often buried.

EXERCISE.

The house suddenly fell in, and six of the workmen were ——— in the ruins.

"The evil that men do lives after them,
The good is oft ——— with their bones."

Mute—dumb.

A *dumb* man has not the power to speak; a *mute* man either does not choose or is not allowed to speak.

EXERCISE.

Walter Scott seemed to have an affection for every ——— animal that belonged to him.

"Long ——— he stood, and leaning on his staff,
His wonder witnessed with an idiot laugh."

Belief—faith.

Belief exists; *faith* acts. Belief is a passive faith, and faith is an active belief.

EXERCISE.

That the world is round, was in the age of Columbus against the common —— of the learned.

"—— builds a bridge across the gulf of death."

Force—strength.

Force is *strength* put in action. A man collects his strength to strike with force.

EXERCISE.

The Greek mythologists represent Atlas as a man of such immense —— that he could bear the world on his shoulders.

The lightning struck the oak with such —— that all the branches were stripped off.

New—novel.

What we get in exchange for the old is *new;* what has never occurred before is *novel.* *New* is opposed to old; *novel,* to known.

EXERCISE.

Richard's uncle made him a present of a —— kite.

This doctor adopts altogether a —— mode of treatment with his patients.

Infirm—weak.

Those who are *infirm* are *weak;* but those who are *weak* are not always *infirm.* Weakness may proceed from various causes, as sickness, etc.; infirmity is the weakness of old age.

EXERCISE.

Though of great age, he is a very active man; for at a time of life when most men are —— and ailing, he performs all the duties of life with the energy of youth.

At the time of the battle of Waterloo, Napoleon was —— from sickness and anxiety.

A picture—a painting.

A *picture* is a representation of *objects;* a *painting* is a representation by means of color. Color is essential to a painting, though not to a picture.

EXERCISE.

Macaulay draws a lively —— of the state of England in the 16th century.

The art of mixing colors, as applied by the old masters in their ——, is now lost to the world.

Genius—talent.

Genius creates ideas; *talent* reduces to practice the ideas of others. In genius the imagination is exercised; in talent, the memory.

EXERCISE.

Napoleon Bonaparte lived at a time favorable for the display of his military ——.

Mezzofante had a remarkable —— for acquiring language.

Fruitful—fertile.

Ground which requires but little culture is *fertile;* trees which bear much fruit are *fruitful.* Aptness for cultivation is the cause of fertility; actual production is the proof of fruitfulness.

EXERCISE.

In many of the West India Islands, the earth is so —— that plants and herbs may be said to grow almost spontaneously.

Our orchard has proved more —— this year than for many previous summers.

Artist—artisan.

Artist is applied to one who practises the fine arts; *artisan* to one engaged in the practical arts. The musician, sculptor, and painter are *artists;* the carpenter, the sign-painter, and the blacksmith are *artisans.*

EXERCISE.

The densely-populated parts of London are inhabited chiefly by laborers and ——.

Mozart and Beethoven were the greatest musical —— the world ever produced.

Pleasure—happiness.

Pleasure is a temporary gratification; *happiness* is a continued state of enjoyment. Pleasure is derived through the senses; happiness is an inward feeling.

EXERCISE.

Wealth, though it assists our ——, cannot procure us ——.

Temperance—abstinence.

Abstinence is the power of refraining; *temperance* is the power of enjoying with moderation. We abstain from what is injurious to our health; we are temperate in our use of what is good for us.

EXERCISE.

Mohammed commanded —— from wine and pork to his followers.
I advised him to be —— in eating and drinking.

Between—among.

Among is derived from *on many; between*, from *by twain*. The former is used in speaking of a larger number; the latter, never when more than two are concerned. The etymologies of these two prepositions will suggest their proper use. A man is therefore between his friends when he has one on each side of him; and he is among his friends when he is surrounded by several.

EXERCISE.

There is no resemblance ——— the hieroglyphics of Egypt and the Chinese characters.
The prize-money was divided equally ——— the ship's crew.

Shall—will.

The following explanations will show the distinction between these auxiliaries:—

I. When the sentence is affirmative, *shall*, in the first person, expresses purpose or intention; in the second and third, it commands.

Will, in the first person, promises; in the second and third, it expresses purpose.

II. When the sentence is interrogative, *shall*, in the first and third persons, asks the permission or advice of another; in the second, it asks the intention of another.

Will is never used properly (interrogatively) in the first person singular or plural; in the second, it inquires about the will, and in the third, about the purpose of others.

The table below will more clearly explain the distinction between these words.

I. (AFFIRMATIVELY.)

Singular.

1.	I shall go	= I intend to go.
	I will go	= I promise to go.
2.	You shall go	= I command you to go.
	You will go	= You intend to go.
3.	He shall go	= I command him to go.
	He will go	= He intends to go.

Plural.

1. { We shall go = We intend to go.
   { We will go = We promise to go.
2. As the singular.
3. { They shall go = I command them to go.
   { They will go = They intend to go.

II. (INTERROGATIVELY.)

Singular

1. { Shall I go? = Do you wish me to go?
   { Will I go? = *incorrect* (never said.)
2. { Shall you go? = Do you intend to go?
   { Will you go? = Do you { choose / wish } to go?
3. { Shall he go? = Do you permit him to go?
   { Will he go? = Does he { choose / intend } to go?

Plural.

1. { Shall we go? = Do you { choose / wish } us to go?
   { Will we go? = *incorrect* (never said.)
2. As the singular.
3. { Shall they go? = Do you choose them to go?

SWINTON'S

WORD-BOOK OF ENGLISH SPELLING,

ORAL AND WRITTEN:

Designed to attain practical results in the acquisition of the ordinary English Vocabulary, and to serve as an introduction to word analysis. By Prof. WILLIAM SWINTON, Prof. of the English Language, University of California, author of *Condensed Hist. U. S., Rambles among Words, &c., &c.* 154 pages. Price 25 cents. By mail on receipt of price.

This Speller has been pronounced to be, wherever examined, the most complete and practical work of the kind ever published. It has reached an enormous annual sale.

EVERY practical teacher should examine this new work. It is designed to attain practical results in the acquisition of the ordinary English vocabulary, and to serve as an introduction to Word-Analysis, and is adapted to ungraded schools, and to the lower classes of grammar schools. Spelling is the *leading* idea; but at the same time a foundation is laid for the subsequent study of words and of language.

Some of the technical points of superiority claimed for the Word-Book over the old time "spelling books" are:

1. Short lessons.
2. A careful division of lessons into written, spelling and oral.
3. A specific division of lessons into monthly and yearly sections.
4. Systematic monthly, yearly and general review lessons, by means of which the spelling of the more difficult words is secured by continued repetition.
5. A careful arrangement of the vowel sounds, as an aid to correct pronunciation.
6. A distribution in easy lessons of abbreviations, colloquial words, Americanisms, French and Latin words met with in the daily papers, &c.
7. A classification of words with reference to roots, prefixes and suffixes, in which general definitions are incidental to the spelling.
8. The introduction into the spelling lessons of a new and suggestive classification of words, with reference to their *leading ideas*, thus giving life and interest to the study.
9. The *practical character* of the book by which the pupil is taught the actual vocabulary of speaking and writing, not tens of thousands of never employed terms, and "long-tailed words in osity and ation."

*** THE EDUCATIONAL REPORTER—Full of interesting and valuable Educational information, is published three times a year, bearing date respectively January, May and September, and will be sent to teachers and educationists, without charge, on application.
